Wellbeing is Art

Music and Art Schools (x 15).

Nationwide partnership together with university college Absalon.

A network that rethinks practice.

To create meaningful and attractive cultural communities also for vulnerable children and young people.

Newborn.

We sat out on our mission in 2024.

Wellbeing.

In Danish we call it "trivsel" (to thrive).

Cultural Passports / Kulturpas

- A national intervention for youngsters between 15 and 24 who finds themselves outside education and employment (in Denmark 43.000 persons).
- How can cultural passports support these young people to become part of society's communities – and in the long term seek out (return to) education or work.

Wicked problem

Alone? 

- From 2010 onwards diagnosis of children and youngsters with **autism** and **ADHD** has more than doubled. These are the primary drivers in the diagnosis explosion we observe among our youth.
- **6%** of Danish children attends special schools, which costs more than **25%** of the total expenditures to primary school in Denmark.
- Every second kid who attends special school will be on welfare support **10 yr** after leaving school – without further education or work experience.
- Wicked problems – an **extended society assignment** for us we **MUST** grapple with!
